

1920 Grinnell Directory

Arranged by Street Address

Dan Kaiser, February 2008

Revised/Corrected June 2009

The first section arranges addresses alphabetically by street name; the second section arranges numbered streets by number in descending order (11th, 10th, etc.); the final section includes all addresses which have no direct street indication (eg., "Central Building Grinnell College" or "n. s. 1" = "north side 1st house"). Where spellings seem unlikely or indicate a possible error I have tried to confirm the published spelling (sic), but since I transferred all these addresses and names manually my own errors may have corrupted some entries. As in the original directory, certain abbreviations are common. Among the most important are: r=resides; bds=boards; rms=rooms; wid=widow. Most indicators of occupation are easily guessed (e.g., "lab"=laborer, "bkpr"=book-keeper, etc.), but for any abbreviations that resist translation, please consult the original directory. Several names appear at the same address, sometimes in different spellings; rather than choose one, I have attempted to retain both, indicating that the duplication appears in the original.
