AERIAL VIEW MUNICIPAL SWIMMING POOL - GRINNELL, IOWA

HISTORY

At noon on March 13, 1854, Josiah B. Grinnell and three friends drove up to the tavern at Lattimore's Grove (Westfield) and ordered dinner. After the meal they set out to find the red flag which marked the site for a town as suggested by a young engineer, Leonard Bacon, who was surveying for the proposed railroad. These men had come to Iowa in search of a site for a colony project whose members would have similar views on education, religion, slavery and temperance.

Four miles away on the summit of the divide between the Iowa and the Skunk Rivers they found the large flag pole near the spot where the Rock Island freight depot was built. Here Mr. Grinnell and three other men, Mr. Homer Hamlin, H. M. Hamilton and Dr. Thomas Holyoke, slept out one night and pre-empted four quarter-sections of land. The northwest quarter-section was platted and laid out in town lots after Mr. Grinnell had reserved one block for a city park, another on the west side for his friend, Loyal C. Phelps, and a third one on the east side for himself. The remaining lots were sold, and the receipts added to the Literary Fund which later made possible the procuring of Iowa College. It was this college which was founded in 1846 in Davenport by eleven theological students who had come into Iowa territory "each to found a church and altogether a college, "was moved to Grinnell in 1859, and was merged with Mr. Grinnell's projected "Grinnell University", retaining the name of Iowa College until changed to Grinnell College in 1909.

John Brown received a cordial welcome from anti-slavery residents of Grinnell (which was a station of the Underground Railroad). Mr. Brown and his party of fugitive slaves with their covered wagons and his arsenal of weapons used in his guerrilla fighting in Kansas were helped on their way to Canada. In 1856 a post office was established. The first train arrived in Grinnell in 1863. On January 26, 1865, a petition with 75 signatures was sent to the court in Montezuma requesting incorporation of the town of Grinnell. This petition was granted on July 21, 1865, and Samual Cooper was elected the first mayor of a town whose early settlers came from Ohio and New England.

By 1880 Grinnell had attained a population of 2,000 and was reorganized as a city of the first class. Historians of that year speak of the marvelous changes in only 26 years: the large and beautiful homes, the tall and branching shade trees (where there had been none), the substantial business blocks, the great railroad corporations, the churches of wood and stone, Iowa College, the business enterprises and wealth, and the intelligence and culture of the citizens. Springing from the treeless, trackless prairie Grinnell had become the pride and joy, not only of the immediate town, but of the state at large.

Disaster struck twice within the next decade. After a "cyclone" on June 17, 1882, Grinnellians buried their nearly 100 dead, cleared away the debris, rebuilt their college and a better town. A fire on June 12, 1889, swept away 54 businesses in the block near Commercial and Broad Streets, but 34 were soon housed in new locations.

In early days the nationally famous "Spaulding buggy" and the smaller plant of the rival "Laros" buggy furnished employment for hundreds of residents. The Spaulding automobile did not survive competition, but the Morrison-Ricker Glove Factory flourished. While the economic climate has always been healthy with sound industrial organizations, world-famous Grinnell College has contributed much in cultural wealth. A private coeducational, liberal arts college with an average enrollment of 1,180 from 48 states, the District of Columbia, the Panama Canal Zone, and 18 foreign countries, it has been ranked among the top ten colleges in the U.S. in more than one study of recent years.

Histories and exhibits of Grinnell's early days, such as J. B. Grinnell's "unique desk" and "the engine" from the plane built by Billy Robinson, Grinnell's pioneer aviator, have been preserved by the Grinnell Historical Museum Society. After years of homeless existence, a generous gift from Miss Rubie Burton in memory of her father, former Postmaster A. M. Burton, added to other gifts, permitted acquisition of the historic J. H. McMurray residence at 1125 Broad Street in 1965 for housing and display.

GRINNELL GENERAL HOSPITAL

GENERAL INFORMATION

THIS IS GRINNELL . . .

"GO WEST, YOUNG MAN . . ."
This well-known advice was given by Horace Greeley to J. B. Grinnell, a young Congregational minister. Mr. Grinnell heeded the advice, and in 1854, founded the city of Grinnell. Built on the solid foundation of religion and education, the city prospered and grew!

GRINNELL TODAY
Today, Grinnell is a thriving city of 8,195 persons. Annual retail sales are close to $16 million with Grinnell's excellent business district serving the city, and a wide area of farmland and small towns around.

A TRADING CENTER
Grinnell serves as a trading center for a prosperous farm area which includes Poweshiek County and portions of Jasper, Marshall, Tama, Iowa and Mahaska Counties. Shoppers in Grinnell find a complete, modern trading center, with an up-to-date selection of merchandise. There is also a complete complement of services available.

LOCAL GOVERNMENT
Grinnell is under a mayor-council-manager form of government. Council meetings are held in the city offices and are open to the public.

RECREATION
Grinnell offers four city parks, all well-equipped; two nine hole golf courses; two soft ball diamonds and an excellent baseball field; tennis courts; fishing at Lake Nyanza park; a large municipal swimming pool plus a country club pool; and Rock Creek Lake. The lake, located just 6 miles northwest of Grinnell, is the largest artificial lake in the country developed for purely recreational purposes -- offering boating, swimming, camping, picnicking, and some of the best fishing in Iowa.

MANUFACTURING
Grinnell has a surprising number of industries -- three seed corn processing plants, one farm seed processing plant, an alfalfa dehydrating plant, a fertilizer manufacturing plant, a muffler-air-cleaner factory, a playgroung equipment factory, a glove factory, a farm equipment manufacturer, and a jacket factory. Grinnell is also the home for the Grinnell Mutual Reinsurance Company and the General Telephone Company's midwest headquarters, serving three states.

PROFESSIONAL SERVICES
In keeping with the pace of modern small cities, Grinnell offers complete professional services. There are two hospitals, with a total bed capacity of 83. Six doctors, five dentists, two chiropractors, two optometrists, one chiropodist and ambulance service is also available. To aid in legal problems, there are eight attorneys and one C. P. A.

AGRICULTURE
A trading center for a prosperous farm area, Grinnell is "town" for farmers from Poweshiek County and portions of Jasper, Marshall, Tama and Mahaska counties. Grinnell area farms represent some of the finest in Iowa.

MOTELS AND HOTELS
Visitors to Grinnell are served by four motels, two east of the city and one west, on Highway 6, and one south at the junction of Highway 146 and Interstate 80. Two downtown hotels are located near the business district.

NEWS MEDIA
The Grinnell Herald-Register is the local newspaper, published semi-weekly on Monday and Thursday evenings. Radio Station KGRN, licensed for daylight hours, broadcasts at 1410 on your AM dial. Both news media are prize winners in their respective fields.

FINANCIAL
Two banks and a savings and loan association serve the financial needs of the Grinnell area.

GENERAL INFORMATION (Cont.)

CHURCHES

Founded by a minister, Grinnell is still a "church" community with 17 churches serving most Protestant denominations and the Catholic religion. There is a remarkable cooperation between the various churches.

GRINNELL COLLEGE

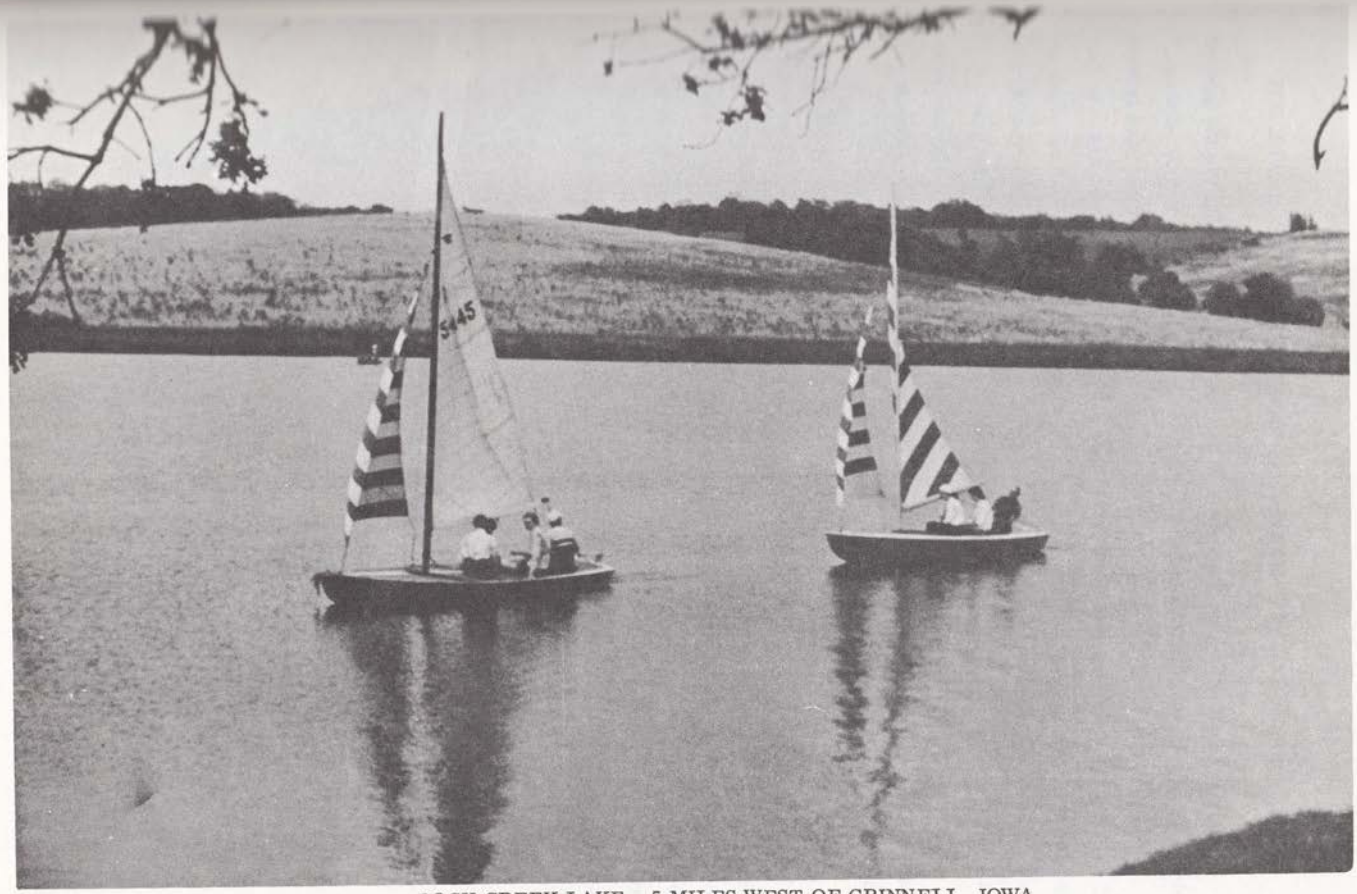

The oldest four year college west of the Mississippi, Grinnell College is consistently rated among the top ten of the liberal arts colleges of the country. It is a dynamic school that has illustrious alimni throughout the country.

MAYFLOWER HOME

Started by one man with a burning desire to establish a truly fine retirement home, the Mayflower Home represents an excellent example of "useful retirement." The Rev. Royal Montgomery spearheaded the program for a meaningful retirement home -- and the Mayflower Home represents the fruition of that dream.

ATTITUDE

More than anything else, you will enjoy the "Grinnell attitude" -- one of infinite faith in the future, and an eloquent respect for the past. Grinnell represents an ideal in life and living -- an ideal that is epitomized by Grinnellians!

ROCK CREEK LAKE - 5 MILES WEST OF GRINNELL, IOWA

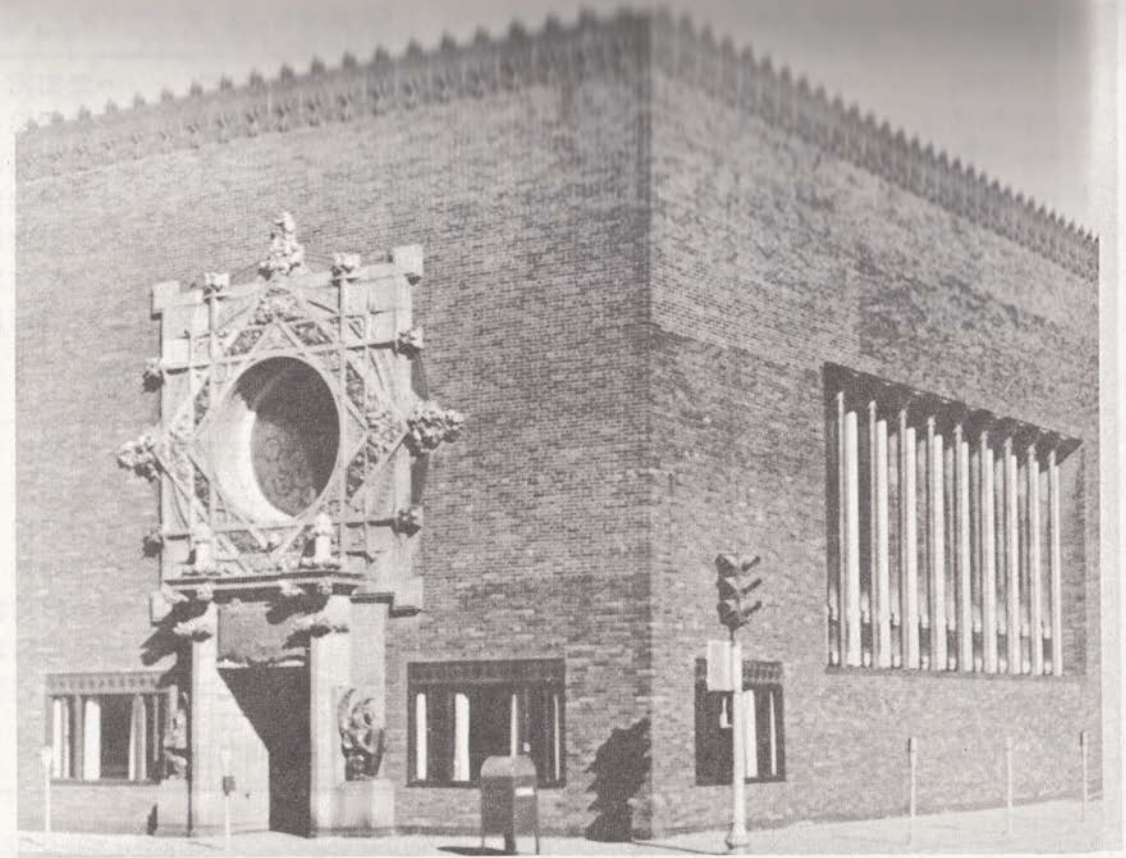

POWESHIEK COUNTY NATIONAL BANK - KNOWN AS THE "JEWEL BOX"

It had long been known, according to the New York Times, that "as the beloved Master, he is the only architect besides himself whom Frank Lloyd Wright admires."

Louis Henri Sullivan at the turn of the century became one of the most famous of the progressive architects. His were some of the first true skyscrapers. He believed that a building's structure should dictate its form. From an outlook such as this came steel frame buildings which used glass in a scale not matched by other architects. The Van Allen Store of Clinton shows vast areas of glass for its time.

Sullivan brought modern architecture to Iowa. Four of our cities, Algona, Cedar Rapids, Clinton and Grinnell are blessed with a variety of Sullivan architecture that no other midwest state can boast, except Chicago, the architect's home.

The Poweshiek County Bank in Grinnell is one of the "Jewel Boxes" of his banks. It is nearly cubical - the center of visual interest is a great window over the entrance. Here is "The Genius of Sullivan frozen in stone." The architect's original system of decoration is not derived from classical orders or traditional scrolls but from nature combined with geometric. The Grinnell Bank is considered by many the finest of the architect's work in the state. Of the five buildings in the four cities, the Grinnell Bank has been least altered. Alterations of the others have destroyed an irreplaceable part of American and Iowa Landmarks.

POWESHIEK COUNTY NATIONAL BANK

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I AM YOUR CITY DIRECTORY

How To Get Along With People

Keep skid chains on your tongue; always say less than you think; cultivate a low, persuasive voice. Make promises sparingly and keep them faithfully, no matter what it costs you. Praise good work done, regardless of who did it. If criticism is merited, criticize helpfully, never spitefully. Preserve an open mind on all debatable questions. Discuss but don't argue. It is a mark of superior minds to disagree and yet be friendly.

FISHING IN THE RIGHT SPOT ?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

use your Directory - the RIGHT SPOT

THE OLD "SQUARE RIG" DAY'S ARE GONE!

The old square rig days meant proper trimming of sails and the correct tack—otherwise disaster. Get rid of your "square rig" advertising—try the Directory—referred to by thousands, your ad will stay on its course.

Go to the Church of your choice...
